KAATYAINI JAISWAL

PRE FINAL YEAR B.E. STUDENT

I am an Information Science and Engineering student seeking an internship opportunity. My passion for technology drives me to stay updated with the latest trends. I bring proficiency in programming languages like Java, C, and C++, along with skills in web development.

SKILLS

- Java Programming
- Web development
- C Programming

EDUCATION

B.E.

Information Science and Engineering

Nitte Meenakshi Institute of Technology, Bangalore
2021 - 2025

EXPERIENCE

JAVA PROGRAMMING INTERN

CodSoft (ongoing)

During the internship, I applied my classroom knowledge to real-world projects, honing my Java skills and learning best practices in software development. Collaborating with the CodSoft team, I enhanced my problem-solving abilities and gained insights into agile development methodologies.

WEB DEVELOPMENT INTERN

BharatIntern (ongoing)

During my web development internship at BharatIntern, I actively participated in the design and development of web applications, gaining proficiency in HTML, CSS, and JavaScript. Working on the projects, I contributed to creating user-friendly interfaces and optimizing website performance. This internship provided a solid foundation for my career in web development.

PROJECTS

1. QR CODE GENERATOR

The QR code generation project in Java efficiently creates QR codes. It encodes data into QR format and renders it as an image. The user-friendly program allows customization of QR codes for various purposes.

2. E-BIKE WEBSITE

This HTML and CSS-based e-bike website showcases a range of electric bikes. It features sleek design, responsive layouts, and intuitive navigation for users to explore e-bike options, specifications, and make informed purchase decisions.
